

“High Tech Kitchen - shop for the best”

Imagine you have 8000 euro to spend.
You should find new appliances for our school kitchen.
Browse the internet and find the best high tech appliances and tools.
Collect information on the following:

- name of the item
- short description
- price
- website where you can purchase it
- + a photo

Mind the budget you have!

Your head chef has given you some directions about what is needed:

1. some appliance to cook at low temperatures (40°-60°)
2. some pans that go into the oven (better with two handles)
3. a desiccator and a smoker
4. an ice-cream maker
5. a thermomix
6. an induction stove
7. A digital candy thermometer

The rest is up to you ;-)

You can start from here:
